Waterloo, ON

Sep. 2023 – Aug. 2027

EXPERIENCE

Web Developer

Laurier CyberSecurity Club

Sep. 2024 – Present

Waterloo, ON

- Developed and maintained the back-end infrastructure for the LCIC website, ensuring seamless data handling
- Optimized database queries and server-side logic to improve performance and reliability
- Ensured smooth communication between the front-end and back-end, enabling accurate event scheduling

Window Cleaner

SoakNScrub

Jun. 2023 – Aug. 2024

Richmond Hill, ON

- Solved problems efficiently to ensure high-quality, streak-free results
- Optimized workflows with team collaboration for timely task completion
- Maintained equipment and followed structured processes for consistency
- Adapted to client needs with attention to detail and analytical thinking

Customer Sales Representative

Farm Boy Inc.

Jun. 2022 – Sep. 2022

Richmond Hill, ON

- Identified customer needs and provided tailored product recommendations
- Collaborated with team members to efficiently resolve customer concerns
- Maintained organization and inventory accuracy through effective stock management
- Adapted to a fast-paced environment, ensuring excellent customer service

PROJECTS

Stock Tracking Website | *Python, Flask, SQLAlchemy, HTML, CSS*

June 2024 – Jun. 2024

- Developed a full-stack web application using Flask, including RESTful API endpoints and server-rendered HTML templates
- Used Yahoo's finance API to collect and track stock prices
- Implemented SQLAlchemy as the database to store user stock tickers and information

Finance Tracking App | *JavaScript, MongoDB, React, HTML, CSS*

Oct. 2024 – Nov. 2024

- Designed and developed a Node.js backend to handle user authentication and financial data storage
- Implemented a MongoDB database to store user login credentials and account balances securely
- Ensured data integrity with schema validation and efficient query handling
